First and foremost, I sincerely want to thank you for your service. As NAR's committee members, you play an important leadership role in our association. Your time, energy and ideas are greatly appreciated.

I am proud to continue the recent tradition of issuing a challenge to all NAR committee members to invest in RPAC. I am elated by the support of committee members who have already contributed. For those of you who have yet to make an investment, please remember the 2012 RPAC fundraising year is more than halfway over. There is no better time to invest in RPAC than today while at the Midyear Meetings. Making an investment takes fewer than two minutes; all you have to do is visit the RPAC table or realtoractioncenter.com/rpac.

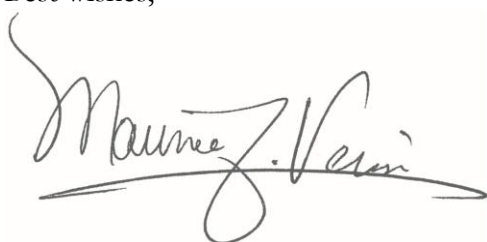

In 2011, many of the committees reached their goal. I know Ron, and I as well, thank those committees for their hard work and dedication to RPAC. This year, we want to get all committees to 100% investment before the end of Midyear in May.

Once you have made your investment I ask each of you to promote the REALTORS® Political Action Committee among your fellow committee members and the membership at large. All committees that reach the 100 percent goal will be recognized at the 2012 REALTORS® Conference & Expo in Orlando, Florida in the Fall of 2012. There are many committees who are on the cusp of reaching 100%. Please let me know if there is anything I can do to help you achieve this important milestone.

We are poised to make this one of the most successful fundraising years! I hope you take the time to invest in RPAC and encourage your colleagues to do the same. If you have any questions or concerns, please feel free to call Bethany Vensel at (202) 383-1166, or me at (786) 367-0171.

On behalf of the entire 2012 NAR Leadership Team, I thank you again for your leadership and dedication to the real estate industry and the consumers we serve.

Best wishes,

Moe Veissi
2012 President
National Association of REALTORS®
