December 1, 2015

The Honorable Mitch McConnell Majority Leader U.S. Senate S-230 Capitol Building Washington, D.C. 20510

The Honorable Paul Ryan Speaker U.S. House of Representatives H-232 Capitol Building Washington, D.C. 20515 The Honorable Harry Reid Minority Leader U.S. Senate S-221 Capitol Building Washington, D.C. 20510

The Honorable Nancy Pelosi Minority Leader U.S. House of Representatives H-204 Capitol Building Washington, D.C. 20515

Dear Majority Leader McConnell, Minority Leader Reid, Speaker Ryan, and Minority Leader Pelosi:

We write to urge a multi-year extension of the Section 179D tax deduction for energy efficient commercial and multifamily buildings, with the refinements to the provision included in S. 1946, the Tax Relief Extension Act of 2015, and those included in title I of the Energy Efficiency Tax Incentives Act (S. 2189) filed last Congress. Section 179D expired on December 31, 2014.

Our organizations and companies represent a broad spectrum of the U.S. economy. They include real estate, manufacturing, architecture, contracting, building services, financing, labor, education, environmental and energy efficiency advocates. We represent many small businesses that drive and sustain American job growth.

Section 179D provides a tax deduction to help offset some of the high costs of energy efficient components and systems for commercial and larger multifamily buildings. The 179D deduction has leveraged billions of dollars in private capital, resulted in the energy-efficient construction of thousands of buildings, and created and preserved hundreds of thousands of jobs. It has lowered demands on the power grid, moved our country closer to energy independence, and reduced carbon emissions.

The amendments proposed to Section 179D as part of S. 1946 would strengthen it by updating the qualifying efficiency standards to a more stringent level, and by allowing tribal governments and non-profits to allocate the deduction to designers. These modifications have been carefully analyzed and thoroughly vetted by myriad stakeholders, and should be incorporated into any tax extenders package. Furthermore, these provisions provide a sound policy bridge to comprehensive tax reform efforts.

We also favor improvements to the 179D deduction to better enable retrofits for buildings owned and managed by private sector owners, and encourage that any extenders package incorporate the common sense, technology neutral, and performance based provisions offered by Senators Cardin, Feinstein and Schatz in title I of S. 2189 filed last Congress.

We strongly urge you to extend Section 179D, with improvements to the provision, as offered in S. 1946 this Congress and S. 2189 in the previous Congress. Thank you.

Sincerely,
