THE COUNCIL FOR COMMUNITY  
AND ECONOMIC RESEARCH

March 17, 2016

Honorable John Culberson  
Chairman  
Committee on Appropriations  
Subcommittee on Commerce, Justice,  
Science, and Related Agencies  
2372 Rayburn House Office Building  
Washington, DC 20515

Honorable Mike Honda  
Acting Ranking Member  
Committee on Appropriations  
Subcommittee on Commerce, Justice,  
Science, and Related Agencies  
1713 Longworth House Office Building  
Washington, DC 20515

Dear Chairman Culberson and Ranking Member Honda:

As you consider FY 2017 federal budget funding, we respectfully urge you to support the U.S. Census Bureau's American Community Survey (ACS). The ACS is a key program that businesses across America use to promote economic development, identify potential customers and create jobs.

The ACS data are required by federal law and are an irreplaceable tool for business and industry in every American community. There are simply no other sources of high-quality, detailed socio-economic information that are comparable across time and geography. The data allow us to analyze current and trending demographic and economic shifts, and to plan future investments accordingly.

The Census Bureau's request of \$251 million for FY 2017 represents a modest increase over current year funding. In FY 2017, the Census Bureau will continue to implement improvements to the ACS, including ways to reduce respondent burden and strengthen the quality and usefulness of data products.

Finally, we believe that making response to the ACS voluntary would greatly diminish the reliability and availability of ACS data for all communities, especially smaller jurisdictions and rural areas.

Thank you for considering our views as you make difficult decisions about how to allocate resources in the Commerce, Justice, and Science appropriations bill.

Sincerely,
