

July 19, 2004

The Honorable W.J. Tauzin
2183 Rayburn House Office Building
United States House of Representatives
Washington, DC 20515

Dear Congressman Tauzin:

As the House Resources Committee prepares to address the important issue of Endangered Species Act reform, I urge you on behalf of the one million members of THE NATIONAL ASSOCIATION OF REALTORS® (NAR) to vote "YES" on both H.R. 2933, the "Critical Habitat Reform Act," and H.R. 1662, the "Sound Science for Endangered Species Act Planning Act." These complementary bills would greatly improve the process by which endangered species are protected and recovered.

Considering ESA's significant impact on private property, the concerns of private landowners and the real estate industry are vitally important in our nation's effort to protect and recover endangered species. The significant economic impact of critical habitat designation on property owners is given scant attention in the endangered species regulatory process. By incorporating economic considerations as well as existing citizen and government efforts to protect and recover species, H.R. 2933 offers constructive reforms to the Endangered Species Act.

Similarly, NAR supports H.R. 1662 because it provides a constructive role for private landowners in the listing, recovery and consultation processes. NAR also supports the bill because it improves the underlying scientific and commercial basis for ESA decision making by establishing objective standards and favoring data that has been field-tested or peer-reviewed.

NAR supports both H.R. 2933 and H.R. 1662 because they represent genuine opportunities to improve the Endangered Species Act and achieve recovery of endangered species through a cooperative effort between government and its citizens. We look forward to working together with you to enact ESA reform legislation in the 108th Congress.

Sincerely,

A handwritten signature in cursive script that reads "Jerry Giovaniello".

Jerry Giovaniello
Senior Vice President, Government Affairs

July 19, 2004

The Honorable Anibal Acevedo-Vila
126 Cannon House Office Building
United States House of Representatives
Washington, DC 20515

Dear Delegate Acevedo-Vila:

As the House Resources Committee prepares to address the important issue of Endangered Species Act reform, I urge you on behalf of the one million members of THE NATIONAL ASSOCIATION OF REALTORS® (NAR) to vote "YES" on both H.R. 2933, the "Critical Habitat Reform Act," and H.R. 1662, the "Sound Science for Endangered Species Act Planning Act." These complementary bills would greatly improve the process by which endangered species are protected and recovered.

Considering ESA's significant impact on private property, the concerns of private landowners and the real estate industry are vitally important in our nation's effort to protect and recover endangered species. The significant economic impact of critical habitat designation on property owners is given scant attention in the endangered species regulatory process. By incorporating economic considerations as well as existing citizen and government efforts to protect and recover species, H.R. 2933 offers constructive reforms to the Endangered Species Act.

Similarly, NAR supports H.R. 1662 because it provides a constructive role for private landowners in the listing, recovery and consultation processes. NAR also supports the bill because it improves the underlying scientific and commercial basis for ESA decision making by establishing objective standards and favoring data that has been field-tested or peer-reviewed.

NAR supports both H.R. 2933 and H.R. 1662 because they represent genuine opportunities to improve the Endangered Species Act and achieve recovery of endangered species through a cooperative effort between government and its citizens. We look forward to working together with you to enact ESA reform legislation in the 108th Congress.

Sincerely,

Jerry Giovaniello
Senior Vice President, Government Affairs

July 19, 2004

The Honorable Donna Christensen
1510 Longworth House Office Building
United States House of Representatives
Washington, DC 20515

Dear Delegate Christensen:

As the House Resources Committee prepares to address the important issue of Endangered Species Act reform, I urge you on behalf of the one million members of THE NATIONAL ASSOCIATION OF REALTORS® (NAR) to vote "YES" on both H.R. 2933, the "Critical Habitat Reform Act," and H.R. 1662, the "Sound Science for Endangered Species Act Planning Act." These complementary bills would greatly improve the process by which endangered species are protected and recovered.

Considering ESA's significant impact on private property, the concerns of private landowners and the real estate industry are vitally important in our nation's effort to protect and recover endangered species. The significant economic impact of critical habitat designation on property owners is given scant attention in the endangered species regulatory process. By incorporating economic considerations as well as existing citizen and government efforts to protect and recover species, H.R. 2933 offers constructive reforms to the Endangered Species Act.

Similarly, NAR supports H.R. 1662 because it provides a constructive role for private landowners in the listing, recovery and consultation processes. NAR also supports the bill because it improves the underlying scientific and commercial basis for ESA decision making by establishing objective standards and favoring data that has been field-tested or peer-reviewed.

NAR supports both H.R. 2933 and H.R. 1662 because they represent genuine opportunities to improve the Endangered Species Act and achieve recovery of endangered species through a cooperative effort between government and its citizens. We look forward to working together with you to enact ESA reform legislation in the 108th Congress.

Sincerely,

Jerry Giovaniello
Senior Vice President, Government Affairs

July 19, 2004

The Honorable Raul Grijalva
1440 Longworth House Office Building
United States House of Representatives
Washington, DC 20515

Dear Congressman Grijalva:

As the House Resources Committee prepares to address the important issue of Endangered Species Act reform, I urge you on behalf of the one million members of THE NATIONAL ASSOCIATION OF REALTORS® (NAR) to vote "YES" on both H.R. 2933, the "Critical Habitat Reform Act," and H.R. 1662, the "Sound Science for Endangered Species Act Planning Act." July 19, 2004

The Honorable Solomon Ortiz
2470 Rayburn House Office Building
United States House of Representatives
Washington, DC 20515

Dear Congressman Ortiz:

As the House Resources Committee prepares to address the important issue of Endangered Species Act reform, I urge you on behalf of the one million members of THE NATIONAL ASSOCIATION OF REALTORS® (NAR) to vote "YES" on both H.R. 2933, the "Critical Habitat Reform Act," and H.R. 1662, the "Sound Science for Endangered Species Act Planning Act." These complementary bills would greatly improve the process by which endangered species are protected and recovered.

Considering ESA's significant impact on private property, the concerns of private landowners and the real estate industry are vitally important in our nation's effort to protect and recover endangered species. The significant economic impact of critical habitat designation on property owners is given scant attention in the endangered species regulatory process. By incorporating economic considerations as well as existing citizen and government efforts to protect and recover species, H.R. 2933 offers constructive reforms to the Endangered Species Act.

Similarly, NAR supports H.R. 1662 because it provides a constructive role for private landowners in the listing, recovery and consultation processes. NAR also supports the bill because it improves the underlying scientific and commercial basis for ESA decision making by establishing objective standards and favoring data that has been field-tested or peer-reviewed.

NAR supports both H.R. 2933 and H.R. 1662 because they represent genuine opportunities to improve the Endangered Species Act and achieve recovery of endangered species through a cooperative effort between government and its citizens. We look forward to working together with you to enact ESA reform legislation in the 108th Congress.

Sincerely,

Jerry Giovaniello
Senior Vice President, Government Affairs

July 19, 2004

The Honorable Christopher Cannon
118 Cannon House Office Building
United States House of Representatives
Washington, DC 20515

Dear Congressman Cannon:

As the House Resources Committee prepares to address the important issue of Endangered Species Act reform, I urge you on behalf of the one million members of THE NATIONAL ASSOCIATION OF REALTORS® (NAR) to vote "YES" on both H.R. 2933, the "Critical Habitat Reform Act," and H.R. 1662, the "Sound Science for Endangered Species Act Planning Act." These complementary bills would greatly improve the process by which endangered species are protected and recovered.

Considering ESA's significant impact on private property, the concerns of private landowners and the real estate industry are vitally important in our nation's effort to protect and recover endangered species. The significant economic impact of critical habitat designation on property owners is given scant attention in the endangered species regulatory process. By incorporating economic considerations as well as existing citizen and government efforts to protect and recover species, H.R. 2933 offers constructive reforms to the Endangered Species Act.

Similarly, NAR supports H.R. 1662 because it provides a constructive role for private landowners in the listing, recovery and consultation processes. NAR also supports the bill because it improves the underlying scientific and commercial basis for ESA decision making by establishing objective standards and favoring data that has been field-tested or peer-reviewed.

NAR supports both H.R. 2933 and H.R. 1662 because they represent genuine opportunities to improve the Endangered Species Act and achieve recovery of endangered species through a cooperative effort between government and its citizens. We look forward to working together with you to enact ESA reform legislation in the 108th Congress.

Sincerely,

Jerry Giovaniello
Senior Vice President, Government Affairs

July 19, 2004

The Honorable Rob Bishop
124 Cannon House Office Building
United States House of Representatives
Washington, DC 20515

Dear Congressman Bishop:

As the House Resources Committee prepares to address the important issue of Endangered Species Act reform, I urge you on behalf of the one million members of THE NATIONAL ASSOCIATION OF REALTORS® (NAR) to vote "YES" on both H.R. 2933, the "Critical Habitat Reform Act," and H.R. 1662, the "Sound Science for Endangered Species Act Planning Act." These complementary bills would greatly improve the process by which endangered species are protected and recovered.

Washington, DC 20515

Dear Congressman Gilchrest:

As the House Resources Committee prepares to address the important issue of Endangered Species Act reform, I urge you on behalf of the one million members of THE NATIONAL ASSOCIATION OF REALTORS® (NAR) to vote "YES" on both H.R. 2933, the "Critical Habitat Reform Act," and H.R. 1662, the "Sound Science for Endangered Species Act Planning Act." These complementary bills would greatly improve the process by which endangered species are protected and recovered.

Considering ESA's significant impact on private property, the concerns of private landowners and the real estate industry are vitally important in our nation's effort to protect and recover endangered species. The significant economic impact of critical habitat designation on property owners is given scant attention in the endangered species regulatory process. By incorporating economic considerations as well as existing citizen and government efforts to protect and recover species, H.R. 2933 offers constructive reforms to the Endangered Species Act.

Similarly, NAR supports H.R. 1662 because it provides a constructive role for private landowners in the listing, recovery and consultation processes. NAR also supports the bill because it improves the underlying scientific and commercial basis for ESA decision making by establishing objective standards and favoring data that has been field-tested or peer-reviewed.

NAR supports both H.R. 2933 and H.R. 1662 because they represent genuine opportunities to improve the Endangered Species Act and achieve recovery of endangered species through a cooperative effort between government and its citizens. We look forward to working together with you to enact ESA reform legislation in the 108th Congress.

Sincerely,

Jerry Giovaniello
Senior Vice President, Government Affairs

July 19, 2004

The Honorable Jim Saxton
339 Cannon House Office Building
United States House of Representatives
Washington, DC 20515

Dear Congressman Saxton:

As the House Resources Committee prepares to address the important issue of Endangered Species Act reform, I urge you on behalf of the one million members of THE NATIONAL ASSOCIATION OF REALTORS® (NAR) to vote "YES" on both H.R. 2933, the "Critical Habitat Reform Act," and H.R. 1662, the "Sound Science for Endangered Species Act Planning Act." These complementary bills would greatly improve the process by which endangered species are protected and recovered.

Considering ESA's significant impact on private property, the concerns of private landowners and the real estate industry are vitally important in our nation's effort to protect and recover endangered species. The significant economic impact of critical habitat designation on property owners is given scant attention in the endangered species regulatory process. By incorporating economic considerations as well as existing citizen and government efforts to protect and recover species, H.R. 2933 offers constructive reforms to the Endangered Species Act.

Similarly, NAR supports H.R. 1662 because it provides a constructive role for private landowners in the listing, recovery and consultation processes. NAR also supports the bill because it improves the underlying scientific and commercial basis for ESA decision making by establishing objective standards and favoring data that has been field-tested or peer-reviewed.

NAR supports both H.R. 2933 and H.R. 1662 because they represent genuine opportunities to improve the Endangered Species Act and achieve recovery of endangered species through a cooperative effort between government and its citizens. We look forward to working together with you to enact ESA reform legislation in the 108th Congress.
