Deficit Reduction (2010-2019)	\$129 Billion	\$130 Billion	\$81 Billion	Comparable Figure Not Available	\$68 Billion

(Footnotes listed on second page)

- i As approved by the House.
- <sup>II</sup> Under the proposal, certain employers could allow all of their workers to choose among the plans available in the exchanges, but those enrollees would not be eligible to receive subsidies via the exchanges (and thus are counted as enrollees in employment-based coverage rather than as exchange enrollees). CBO and JCT expect that approximately 9 million people would obtain coverage in that way in 2019, bringing the total number of people enrolled in exchange plans to about 30 million in that year.
- **Example 2016** Exercise premiums vis-à-vis expected 2016 average premiums without reforms.
- iv CBO report provides only a total tax penalty figure for individuals and employers.
- v No payments paid by small employers who are exempt from the employer mandate (annual payrolls ≤\$500K) or employer responsibility (≤ 50 employees) provisions of each bill.
