

AHPs State by State (as of May 10, 2019)

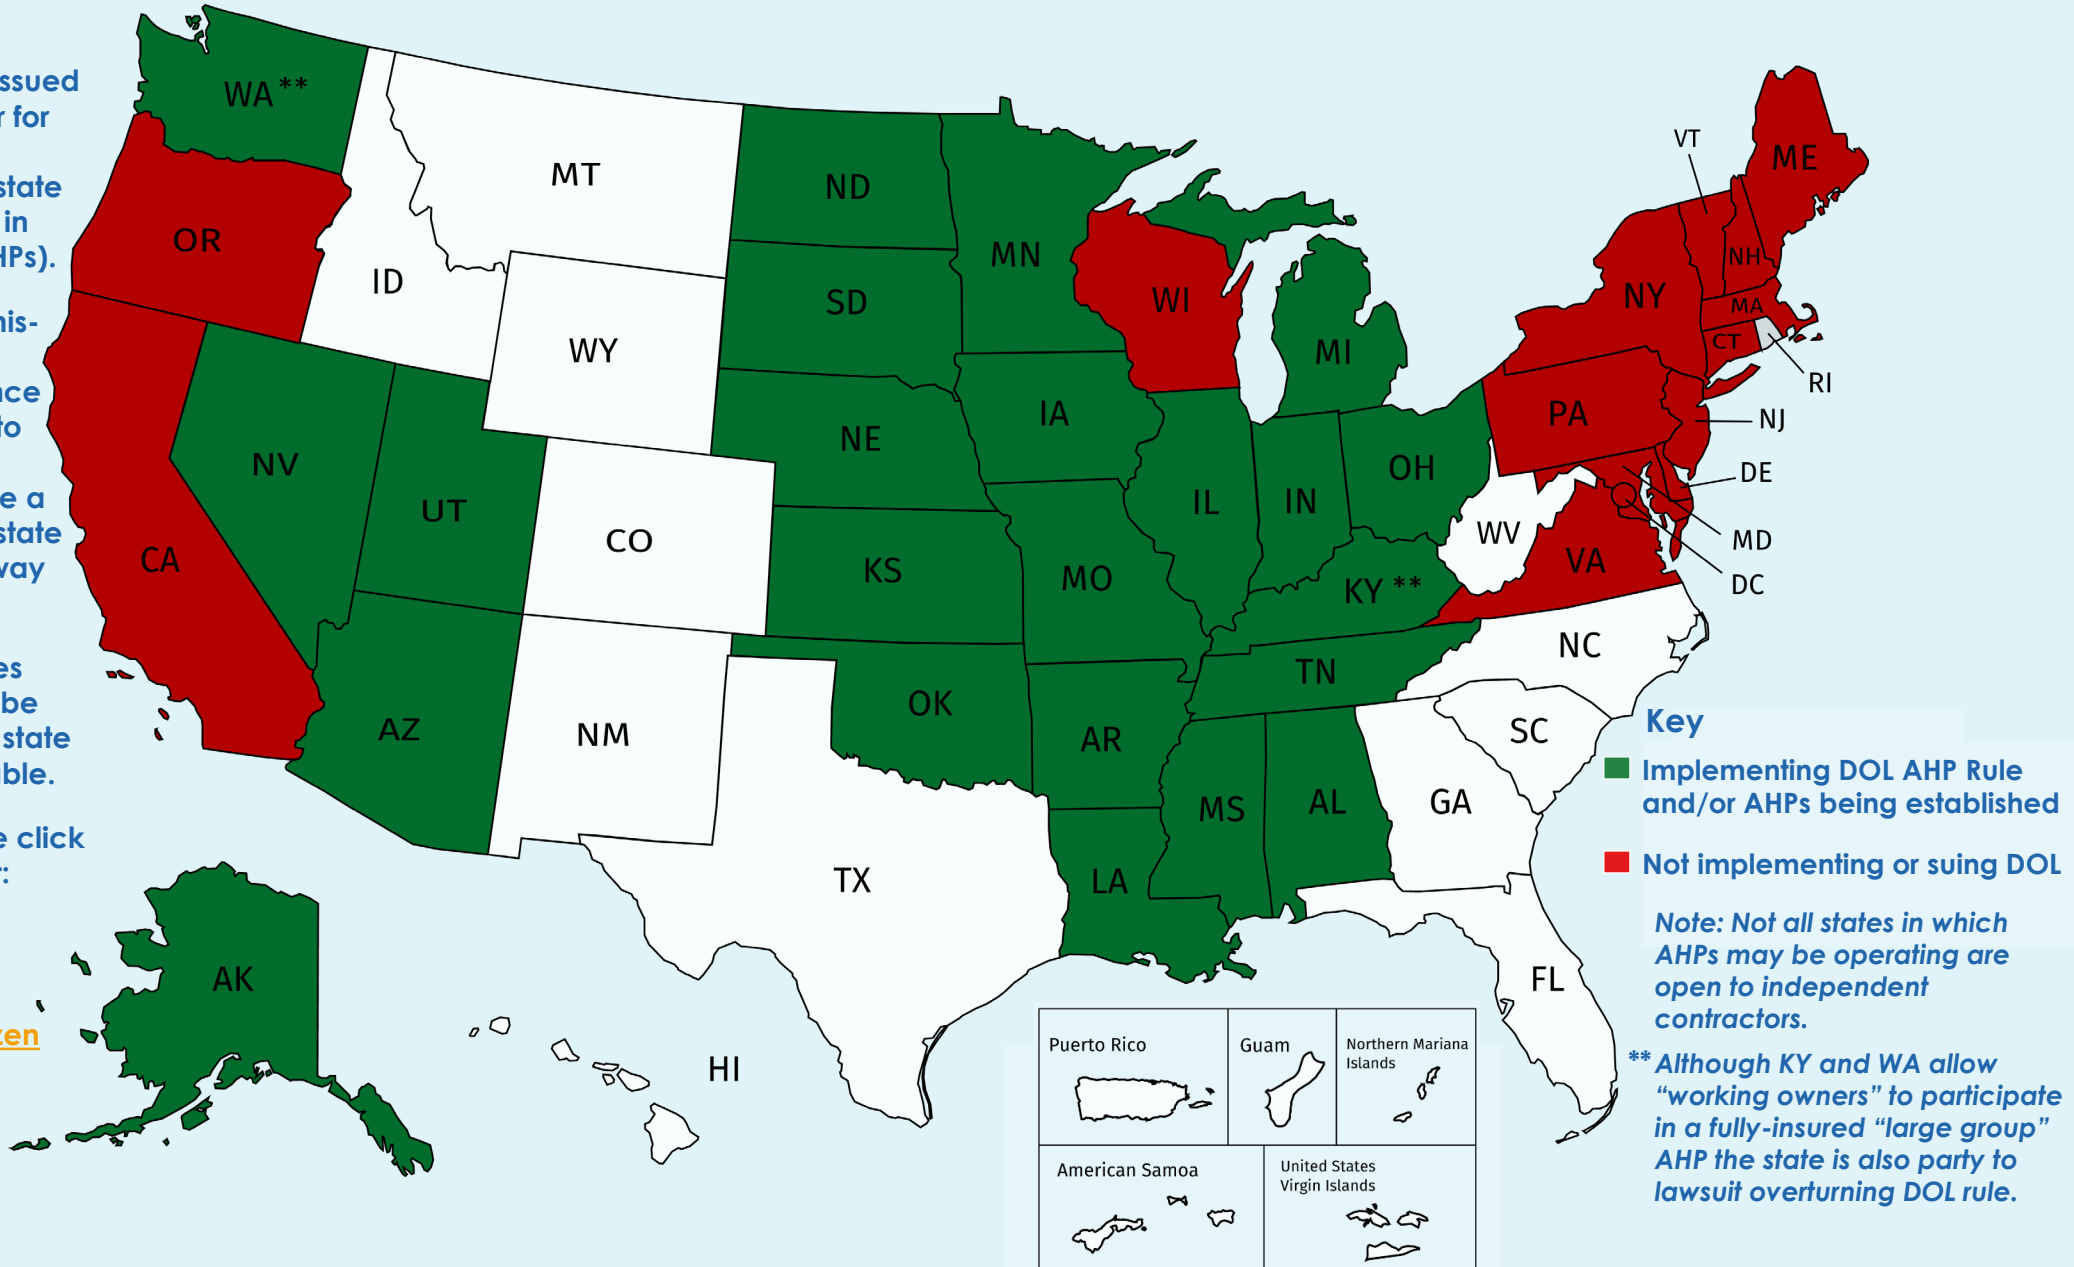

On June 21, 2018, the U.S. Department of Labor (DOL) issued a new rule opening the door for small businesses and sole proprietors (including real estate professionals) to participate in Association Health Plans (AHPs).

Some state insurance commissioners have taken legal action and/or issued guidance to insurance companies as to whether the state intends to implement the DOL rule while a lawsuit brought by a dozen state attorneys general winds its way through the courts.

This map depicts which states have taken action. NAR will be updating this information as state information becomes available.

Key

- Implementing DOL AHP Rule and/or AHPs being established
- Not implementing or suing DOL

Note: Not all states in which AHPs may be operating are open to independent contractors.

**** Although KY and WA allow "working owners" to participate in a fully-insured "large group" AHP the state is also party to lawsuit overturning DOL rule.**
