

What Do a Farmer, a Mechanic, and a Shopkeeper have in Common?

(more than you may think...)

They need access to affordable health plans.

Over 60% of all new jobs are generated by small businesses and the self-employed.* They're making big contributions to our local economies, and there's something Congress can do to help.

Congress can pass the Small Business Health Fairness Act (H.R. 525/S. 406) that gives small businesses and the self-employed the opportunity to purchase affordable health insurance coverage.

They are the people we rely on everyday in our communities. Their businesses may be small, but together, their power drives our economy.
